

Visit to State Load Dispatch Centre (SLDC)

A one-day technical visit to the State Load Dispatch Centre (SLDC) of Uttar Pradesh was organized for Electrical engineering students by the Electrical department and EES on 9th October 2021. SLDC is the prime body which is responsible for the integrated operation of power system in Uttar Pradesh. SLDC ensures the secure and economic working of the state grid and also carry out practical operations for grid control and electricity dispatch in the state. The SLDC works under RLDC which further works under NLDC.
