

About the Seminar

The All India Seminar on “Green Renewable Electronics for Environmental Nurturing and Sustainability” (GREENS) aims to address the urgent need for sustainable practices in electronics, amid rapid technological progress and environmental challenges. It will unite researchers, industry experts, policymakers and educators to collaborate and explore for advancements in green electronics. Key topics include Eco-Friendly Materials & Manufacturing, Energy Efficiency, Renewable Energy Integration, Lifecycle Assessment, and E-Waste Management. Additionally, it will examine policies and regulatory frameworks supporting sustainable practices and focus on incentives for Eco-Friendly Innovations. By fostering collaboration, GREENS seeks to drive the transition towards sustainable electronics, providing participants with insights into the practical steps needed to achieve environmental goals in the electronics industry. Through discussions on policies, case studies, and innovative solutions, the seminar aims to inspire actionable steps toward environmentally responsible electronics and foster collaboration for a sustainable future.

Sub - Themes

- Sustainable Power Generation and Management
- Energy-Efficient Electronics Design
- Role of Microelectronics in sustainable technology
- Role of Communication in Design Energy Efficient Electronics
- Renewable Energy Integration and Storage Systems
- Green Materials and Recycling in Electronics
- Smart Grids and Micro grids
- Use of AI/ML in Green Technology
- AI and IoT in Energy Conservation
- Electric Vehicles and Sustainable Transportation Systems
- Photovoltaic and Solar Power Systems
- Sustainable Electronics Manufacturing Processes
- Policy, Regulation, and Education for Green Electronics
- Green and Smart Cities

About The Institution of Engineers (India)

The Institution of Engineers (India), a premier professional body of engineers, established in 1920 and incorporated by Royal Charter in 1935, has been serving the cause of engineering science and technology for more than a hundred years. It remains the only professional body in India to be accorded this honor. It has in its fold more than 220000 professional engineers and it operates through 125 States and Local Centres across the country and six chapters abroad. Today, its quest for professional excellence has given it a place of pride in almost every prestigious and relevant organization across the globe. IEI functions among professional engineers, academicians and research workers. The Institution also provides grant-in-aid to its members to conduct research and development on engineering subjects.

About The Institution of Engineers – UP State Centre (UPSC)

The UP State Centre of IEI, the oldest centre in India, held its first AGM on November 10, 1921 in Kanpur, inaugurated by Mr. AWE Stendley MLC as the first Chairman. The UP State Centre is located at State Centre Building in River Bank Colony, Lucknow. Hafiz Mohd. inaugurated it during the 38th Annual Convention of The Institution of Engineers (India). Ibrahim, Minister for Irrigation and Power, UP Government. The UP State Centre comprises 10 local centres located in Ghaziabad, Meerut, Aligarh, Agra, Bareilly, Kanpur, Allahabad, Gorakhpur, Varanasi and Anpara.
